05 · Teacher and parent guide

Extra material, not a book page

Part A is for the teacher (with the Term 2 checklist, MVL note and Common Mistakes). Part B is the take-home note.

Part A · For the teacher

This week in one line: Smart Review. Children bring back every Term 2 idea from memory at four stations. You find out who still needs help before the Week 11–12 station check.

Get ready (15 minutes before class)

- Print the four station signs (Printables PDF) and place them around the room.
- Put materials at each station: pattern strips and cards (1), nothing needed but hands and feet (2), hoops and big objects (3), the shape track and Term 1 step cards (4).
- Count the counters. Print the Term 2 checklist and the MVL note below.
- Read the Common Mistakes table in the lesson spec. The table in the Lesson spec has the same points.

Term 2 checklist (tick ✓ Secure · P with prompts · blank not yet)

Name	Copies and continues an AB pattern	Says what comes next	Sorts by one feature and says the rule	Makes own AB pattern

Observation only, not marked. Week 12 uses the same four items; Secure on the checklist earns the "Step Thinker · Term 2" badge in Week 13.

MVL thread (separate note, not part of the badge)

Name	Orders 3 step cards	Swaps back two swapped cards

Name	Orders 3 step cards	Swaps back two swapped cards

> **RhinoBot tip**
> Retrieval works best when it is quick and a little hard. Ask before you show: “What comes next?”, then let children check by doing it.

Who needs support?

List any child who is not yet Secure on an item. Give them extra turns at that station early in Week 11, before the station check.

Part B · Take-home note for parents and carers

This week we reviewed everything from Term 2: copying and continuing patterns, saying what comes next, sorting by a rule and making our own patterns.

Try this at home (5 minutes)

1. Ask your child to show you their favourite pattern from this term.
2. Clap, stamp, clap, stamp… stop! “What comes next?”
3. Sort the spoons and cups together. Ask: “What is our rule?”

Coming up

Week 11: the Robot dance build. Week 12: a fun station check. Week 13: showcase and the **Step Thinker · Term 2** badge!

> **Play together**
> Scan the QR code in the book, or visit: https://rhinoxscientifica.com/q/n1-t2-w10
> Printable station cards and review games (optional; screen time is never needed).
